#### INTERNSHIP EXPERIENCE

**Traffic Sign Data Annotation** — IIT Indore (Virtual, Oct 2024)

- Annotated Indian road traffic sign images for ML datasets.
- Worked under IIT Indore faculty to maintain labeling quality.

**Machine Learning Intern** — Vaishnav Technologies (Virtual, Sep–Oct 2024)

- Applied ML algorithms for classification and prediction tasks
- Used Pandas, NumPy, and scikit-learn for model implementation.

#### **PROJECTS**

#### Al App Builder (Lovable-inspired) — GitHub

- Built a multi-agent AI system to generate full web apps from natural language.
- Implemented planner, architect, coder, and reviewer agents using LangGraph and LLMs.
- Used tool-based agents to write, edit, review code files and enable live preview execution and Export generated project Zip files.

#### Sikhsha Sathi — Live Demo

- Developed a complete SaaS-based institute management platform.
- Includes student management, payment tracking, and analytics dashboard.
- Built with FastAPI, HTMI,CSS, and MongoDB for scalability and performance.
